Praise for the second edition

This book is something special. The chapters build on each other to a startling accumulation of depth. Get ready for a treat.

—From the foreword of the second edition by Robert C. Martin, cleancoder.com

The best way to learn unit testing from what is now a classic in the field.

—Raphael Faria, LG Electronics

Teaches you the philosophy as well as the nuts and bolts for effective unit testing.

—Pradeep Chellappan, Microsoft

When my team members ask me how to write unit tests the right way, I simply answer: Get this book!

—Alessandro Campeis, Vimar SpA

The single best resource on unit testing.

—Kaleb Pederson, Next IT Corporation

The most useful and up-to-date guide to unit testing I have ever read.

—Francesco Goggi, FIAT

A must for any serious .NET developer wishing to learn or perfect their unit testing knowledge.

—Karl Metivier, Desjardins Security Financial
